Subject: Signed Burn Test Plan

Chris,

Sorry for the delay in signing this.

The original version you sent me on Wednesday was just fine. Please make sure the word file is corrected to the version I just signed. The witnessing statement needs to be left in the Burn TP because this TP applies to ALL of the coupons that have been previously been burned, not just the latest ones. Technically, I am supposed to go to Toronto and witness every single burn test. However, at my discretion, I am allowed to delegate portions of the testing. Since I have witnessed the majority of the testing already, I am comfortable with letting Exova do this on their own, but I am fully responsible for it.

Assuming we pass the burn test, I assume you will update the applicable M-drawing for this???

Bill,

If we decide to change suppliers or part numbers on anything that is not metallic and gets installed inside a helicopter, it MAY be subject to a burn test. Generally speaking, we need a one month warning (not a one week warning) before you intend to incorporate that material into a production part in case we need to revise a TP and/or make arrangements for a burn test.

Regards,
David
